

Health Fairs in and around Loreto, B.C.S.

REPORT FOR

WEEKENDER TEAM – February 18-21, 2011

We had another wonderful Team this month - which was made up of 2 people from Canada and 8 Mexicans, in addition to 7 people helping from the local church... In fact the 2 people from Canada have come to Loreto for three weeks — to help us in various ways, not just to be a part of this Team, but also to help us with our other local ministries, some of the construction needs at two churches, and another local evangelistic outreach.

(If you have ever thought you might like to join one of our Teams, please consider also coming for a few days more, or even 1, 2 or 3 weeks more — there is so much you could help us with...)

This month we went 2 hours south of Loreto, to the city of Constitución. We arrived Friday afternoon, put the dental trailer in place by the church, and then met other Team members for dinner. Saturday we had a full day at our Health Fair, but not a lot of people. Then on Sunday we held our Health Fair following the morning church service and there was a rush of people, and then things slowed up. So in all, we had less than a hundred people — but with fewer people, it meant that we were able to spend more time with each person — and that is a good thing! So we were not disappointed...

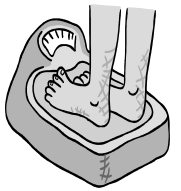

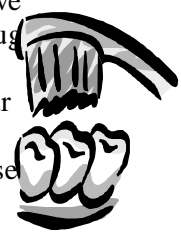

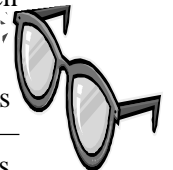

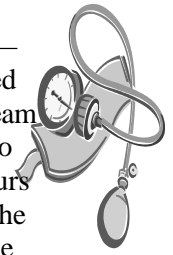

A man in his late 30's came on Saturday to see the dentist, but unfortunately the dentist was already fully booked for the day — however he was given a Bible, and spoken to..., and he came back on Sunday... But he again did not come early enough to be able to get a ticket to see the dentist — all of the timeslots had been taken by the time he arrived. So I spoke to him, asking what his need really was, and he shared with me that he was in such pain that he tried to take out his own back molar tooth, but it broke off. So he needed to see a dentist to take out the rest of the tooth — but because he was no longer in pain, it could be attended to at our next Health Fair... So he's planning to come back next

month. He then went on to share with me the great need there is for people like us to come and provide medical and dental services like we do; and I shared with him that we do what we can, going from place to place, from Santa Rosalía to Constitución — But he said it was not enough! — And I agreed. Then I said to him: so what really happens therefore is that we are led by God to go to certain places at certain times with our Health Fairs..., and God also leads the people He wants to bless to come to those Health Fairs...

I then shared with him that because it was not possible for him to see the dentist, there must then be another blessing that God intended for him..., and he agreed — but did not know what that might be... So I introduced him to Blanca, a lady from La Paz that was on our Team this month, and I said to him that she would explain to him what that might be. Blanca then spent over 2 hours talking with him..., listening to him..., sharing from the Bible with him..., after which he prayed to receive the Lord Jesus Christ as his own personal savior. He then told us how wonderful it was that he had a problem with his tooth, because his tooth led him to come to our Health Fair, and because he had come late he was then able to speak for such a long time with Blanca — and as a result be able to learn about the love of Jesus, and then be able to receive Him as his savior...

Each month we try to give you a glimpse of what we do, and how the Lord is blessing so many people through this ministry. We trust you too are encouraged!

Thank you so much again for your prayers and your financial support, which help to make this all happen. And if you are able to come to Loreto sometime, please know that we would love to have you join one of our Teams — there is nothing like seeing all of this first hand, and being used by God to bless these people — physically and spiritually...
