

MDU

The mobile dental unit has been in use several times already this year. As we have written before the MDU continues to be a tool to bring people to outreach events. After they receive care for their physical needs we have the opportunity to share about God's love and plan for their lives.

In early February we had a medical/dental team from southern California come and serve for a weekend. On Friday we took our team of 'Angels' (Mexican youth team) and met the medical team for an afternoon of care. On Saturday we opened our mission base for the community to come and receive care. In both locations the Mexican part of the team shared Jesus.

Then in early March we took the MDU to Tijuana for a day of partnership with the Mexican churches and medical community. Several hundred people were told of God's love and forgiveness plus had many of their physical needs met also.

In mid March we spent four days in Ensenada in partnership with a local church and a medical team from Oregon. Together we were able to assist in the ongoing ministry in some of the poorest areas of Ensenada.

Thank you each and everyone who had a part!

God does not call the qualified, He qualifies the called

School Outreach

As you may have read in past 'Journals' we have been invited into local schools to teach morals and community health. That opportunity continued in February with five more schools of which three were new to our program. This series of schools focused on small one to three room schools which often times tend to be overlooked and usually have limited resources. These school outreaches have become wonderful opportunities to build relationships with teachers, school directors, and students. It seems that with each new school it is not long that another school director will contact us and request this program for their students. This outreach has allowed us to build relationships which reach beyond the walls of the school.

School Outreach Team

New Events

Over the past months we have partnered with the local church for a couple of really fun events.

First we provided a dinner for all the "young" married couples associated with the church. There were some people who came with their spouse who had never been to the church. Because the dinner was held at the mission base they were willing to come.

Then recently we Barbequed hamburgers for a youth outreach held at the mission base but sponsored by the local church. It was awesome to see youth from several churches, plus several who do not attend any church together. They sang, played games, heard a Bible lesson, and ate all the food they wanted.

The youth were so excited to have a place to invite their un-churched friends they have asked us when can we do this again.

Youth Outreach

Changed Life

We never know how our words and actions will affect others. We have a group of college students who come down for a couple of weekends each year and this is an account of one of those students.

On Saturday evening as the team was sharing their thoughts and experiences she said, "I have not lived for God and in fact I have not believed there was a God and the Bible is a nice book of history. But after what I have seen this weekend and heard Dave and Lynne share how God has provided their needs I need to reevaluate my views". The result of that weekend encounter she dedicated her life to God and in the weeks following led her mother to a personal relationship with Jesus Christ also. She is now a leader of the group.

Each person who supports us had a part in changing this young ladies life.
