

A Publication of Dave & Lynne Johnson

SFC

Sutherlin Family Church provided a wonderful mixed team of youth and adults. Their main work project was the house for Pedro and Anna's family. They were able to get the walls up and the trusses built and ready to set in place. They also painted a new fence on the mission base.

The ministry was at a ranch near Santo Tomas where they held a 4 day children's ministry in partnership with our team of Angels (Mexican Youth Team). Lynne and I are always excited to see how children respond to creative ways of sharing God's love and plan for His creation.

SFC is very special to us because of the relationship with so many friends but also because it is our home church. We are blessed to have a church like SFC which cares about us and provides love and encouragement.

**"Reputation is what men and women THINK of us;
Character is what God and angels KNOW of us."**

MDU

The Mobile Dental Unit (MDU) continues to be a wonderful tool to reach people and show God's love in a practical way. This unit is nearly 20 years old and we have ordered a new custom built trailer which, at this writing is not out of the factory but is scheduled to be completed in the next few days. The new MDU is being built with the goal of being rugged and yet a great place for our volunteers to serve and share God's great love and forgiveness. Sutherlin Family Church has people who agreed to install the cabinets, electrical, generator, and other equipment.

Praise & Prayer

- Praise for new MDU
- Praise for great spring outreach and teams
- Pray the new MDU will be effective in reaching people for Jesus
- Pray for wisdom as we plan future ministry

Caronport

Pastor Jose requests this team hold a children's outreach at the church each year and this year was no different.

On Monday the team walked nearly every street in town to pray for each household and person they encountered. The result of this outreach Pastor Jose's granddaughter prayed and asked Jesus into her life. One new family has begun to attend church somewhat regularly since April also. The team set the trusses and prepared the house for the sheetrock team to finish. This house is a joint project in partnership with the local church and at their request. One of our goals in ministry is to allow the local church to lead and we are to be a support role.

Our Grandchildren

Learning to make Tortillas

Angel Profile

Betel has been serving with us for the past four years. She is the youngest of eleven children and one of three sisters serving as an "Angel". She began her service at age 9 and over the past couple of years has shown leadership skills similar to her other two sisters serving as "Angels". Betel has led singing, told Bible stories, created crafts for the children, drama, and used creative ways to teach Bible verses to the kids. Our prayer is for Betel to continue to grow in Christ and have a desire to serve God wherever and whatever she does in the future.

Family

We had a wonderful week with our grown children and their families vacationing near San Francisco, CA. It was especially exciting to welcome Jon and Patti's first baby, a girl "Jordan May" who was born Feb. 6.

We are so blessed to have our family in support of our ministry. All of our family have been to San Vicente and plan to return.
